General Information

EDUCATIONAL OBJECTIVES

The Emerson plan of education is designed to develop a high level of competence in a speech field within the framework of the traditional liberal arts curriculum. A large percentage of graduates follow careers in a professional speech field. Many find that the effectiveness in thought and action associated with their competence in speech gives them a distinct advantage in the fields ordinarily open to liberal arts graduates.

Since its founding as a school of speech in 1880, Emerson College has held steadfastly to the belief in the importance of oral expression for the development of the individual and the community. The College always has been concerned with the cultural developments which produce an ever-increasing need for well-educated men and women who are skilled in the communication arts.

The development of the curriculum has been guided by the need for programs of study for emerging professional speech fields, by an increasing awareness of the importance of the values and insights stemming from the study of the liberal arts, and by the belief in the importance of performance experiences for every student.

Major programs, therefore, are provided in speech, radio, television, theatre arts, speech therapy, and audiology. The liberal arts requirements for speech majors have been strengthened to a point considerably beyond what most colleges deem necessary for a speech degree, and a number of major programs in the liberal arts are provided.

Every student has ample opportunity for experience in public performance on platform, stage, radio, and television and for technical performance in the theatre and broadcasting laboratories and in the speech and hearing clinic. Students are constantly encouraged to demonstrate initiative and to accept responsibility in the organization of public performances and in the many student activities.

The achievement of a liberal education plus an employable level of professional competence within the four years of a baccalaureate program requires an unusually favorable environment for teaching and learning. The foundation for this lies in the requirement, unique among fully-accredited senior colleges, that every student take either a major or a minor in a speech area. This allows for a high level of cooperation among the liberal arts and speech faculties. The emphasis on performance and student responsibility also promotes close and effective student-faculty cooperation.

The student who takes full advantage of the educational experiences Emerson provides receives a superior education. He graduates, not only with the preparation he needs for immediate employment, but also with the far more important foundation for continuing growth in his professional field and for the continuing development of his capacity for effective living and responsible citizenship in a free society.

HISTORY

The Boston Conservatory of Oratory, which eventually became Emerson College, was opened in September, 1880, at Number 13 Pemberton Square in Boston with one instructor and six students. The founder of the College was Charles Wesley Emerson, LL.D. (1837-1908), who had previously studied and taught with Lewis Baxter Monroe, A.M. (1825-1879), Dean of the Boston University School of Oratory. Dr. Emerson, a native of Vermont and a kinsman of Ralph Waldo Emerson, was a Unitarian minister, who served parishes in Vermont and Massachusetts before turning his attention to speech training and the improvement of public speaking.

The College grew rapidly, taking first the name of Monroe College of Oratory under which it was incorporated September 4, 1886, and then Emerson College of Oratory by act of the Massachusetts General Court on March 14, 1890. Under Dr. Emerson's administration the College soon reached an enrollment of over five hundred students and numbered among its faculty such men as Edward Everett Hale, LL.D., well-known author and lecturer, and William J. Rolfe, A.M., distinguished Shakespearean scholar. More especially, however, he inspired by his example and teaching young men and women of promise — Charles Winslow Kidder, '89; Harry Seymour Ross, '97; Henry Lawrence Southwick, '87; Jessie Eldridge Southwick, '85; and Walter Bradley Tripp, '90 — who were later to assume leadership in the College as teachers and administrators.

In 1900 Dr. Emerson transferred the administration of the College to Henry Lawrence Southwick, Jessie Eldridge Southwick, and William Howland Kenney, although remaining president until 1903, when William James Rolfe was elected his successor. In 1908 President Rolfe was succeeded by Henry Lawrence Southwick and Harry Seymour Ross was named dean.

In the early years of the College the curriculum consisted almost entirely of courses in the speech areas, with diplomas granted upon the completion of two and three years of residence. After the reorganization in 1908, the College began the establishment of a collegiate course leading to a baccalaureate degree. In 1913 a four-year course was introduced and college standards of admission and graduation were established. In recognition of this sound academic growth, upon recommendation of the Massachusetts Board of Education, a special act of the Massachusetts legislature gave Emerson the right to confer the degree of Bachelor of Literary Interpretation.

After fifty years of operation as a private school, the proprietors in 1930 believed the time had come to transfer the direction of the College to a corporation which should administer the institution through an elected board of trustees. The College was fortunate from the beginning in securing a wise and capable governing board whose members brought broad academic experience and new vision to the direction of the College. In 1933 the trustees secured Number 130 Beacon Street, the first of the seven related buildings that presently constitute the instructional facilities of the College; in 1936 the right of granting the degree of Bachelor of Arts, and in 1941, the degree of Master of Arts, was achieved; in 1939, because of the expansion of the curriculum to include a wide range of academic disciplines, the words "of Oratory" were eliminated from the title by a legislative act; in December 1950, Emerson College became a member of the New England Association of Colleges and Secondary Schools, the regional accrediting agency; in 1955 the College was authorized to grant the degrees of Bachelor of Science in Speech, Master of Science in Speech, and certain honorary degrees; again, in 1958, similar authorization was given to permit the conferring of the degree of Bachelor of Music in conjunction with the Longy School of Music in Cambridge.

Upon the death of President Southwick in 1932, Dean Ross was elected the fourth president of the College and continued until his retirement in 1945. Between 1945 and 1952, Boylston Green, Ph.D., Godfrey Dewey, Ed.D., and Jonathan Wales French, Jr., Ed.M., were successively entrusted with the direction of the College. On December 1, 1952, S. Justus McKinley, Ph.D., LL.D., a member of the faculty from 1933 until 1946, and from 1946 to 1952 Chairman of the Social Science Department at Springfield College, returned as its eighth president.

Emerson College is the oldest fully-accredited college of speech in the United States and is the only American college which requires a speech major or minor of all its students. Its seven thousand alumni have held outstanding positions in the academic and professional world and are currently serving in every state of the Union and in foreign countries.

ACCREDITATION

Emerson College is a member of the New England Association of Colleges and Secondary Schools, the accrediting agency for New England.

Emerson is approved by the Veterans Administration for training under both the World War II and Korean "G. I. Bill of Rights." Specific information may be obtained from any Veterans Administration office or from the Veterans Counselor at Emerson.

INSTITUTIONAL MEMBERSHIPS

Emerson College is a member of the American Alumni Council, the American Association of Collegiate Registrars and Admissions Officers, the American Council on Education, the American Educational Theatre Association, the Association of American Colleges, the College Entrance Examination Board, the Eastern Association of College and University Business Officers, the Massachusetts Council on Teacher Education, the National Association of Educational Broadcasters, the National Association of Educational Buyers, the National Commission on Accrediting, and the Speech Association of America.

FACILITIES AND SERVICES

ADMINISTRATION AND CLASSROOM BUILDINGS

The seven buildings that are the academic center of Emerson College are located at the corner of Beacon and Berkeley Streets. The connected buildings numbered 126, 128, and 130 Beacon Street, and the theatre, overlook the Charles River; those numbered 143 and 145 Beacon Street and 303 Berkeley Street are directly opposite.

AUDIO-VISUAL AIDS

Audio-visual aids, including slide projectors, motion pictures, 8 mm. motion-picture making and projection equipment, 16 mm. sound projector, a film library including fifty 16 mm. sound discussion programs, disc and tape recording equipment, and models of anatomy, including the larynx, brain, and skeleton, are available for the use of all departments. The audio-visual services of the Audio-Visual Department of the Massachusetts Department of Education and of the Boston Public Library also are used frequently.

BOOKSTORE

The College maintains a store at 130 Beacon Street from which students may purchase not only books and supplies but also a variety of personal articles.

LIBRARY

The library, occupying the top floor of 130 Beacon Street, and a part of that of 128 Beacon Street, is under the direction of trained librarians and a committee of the faculty.

In addition to the reference room and study-reading rooms, there is a phonograph room, a periodical room, and a browsing room. Students also have the advantage of proximity to the Boston Public Library.

Important gift collections are: The Walter Bradley Tripp Collection of approximately one thousand volumes of drama and other literature; the Henry Lawrence Southwick Collection, specializing in the speech arts; the George Brinton Beal Collection of more than one thousand volumes relating to the stage. Recent gifts have added greatly to the social sciences and general liberal arts collections.

LUNCHROOM

A lunchroom, serving breakfasts and light lunches, is open from eight until three-thirty o'clock each day, at 126 Beacon Street.

BROADCASTING FACILITIES

Broadcasting training at Emerson College is designed to supply a wide and diversified fund of practical information and to develop specific technical skills, in order to provide the student with a background that will enable him to engage in professional or semi-professional broadcasting work both in radio and in television. Emerson has always believed that broadcast training should be more than theory; in addition, it must be practical, involving the actual use of the tools of broadcasting. For this reason, Emerson attempts to provide the best in broadcasting facilities.

Radio

The technical layout for radio is on a par with that of a good commercial station, with professionally designed studios, studio control rooms, a master control room, transmitting room, audition room, news room, and program offices. The best of professional equipment has been installed, including facilities for the making of tape and disc recordings of the highest quality.

The College has its own non-commercial, 18,000-watt Frequency Modulation station, WERS, which offers coverage over a wide area. This station, operating on an FM assignment of 88.9 megacycles, is on the air daily from three to ten-thirty with programs of information, education, and classical entertainment. The station is staffed and operated by students majoring in broadcasting.

The College also maintains a closed-circuit radio system known as WECB, which provides an opportunity for practical broadcasting experience for freshman and sophomore students.

Television

Aware of its responsibility in all aspects of communications arts, Emerson offers substantial training in television. Employing the same fundamental training techniques so successful in the teaching of radio skills, that is, practical training under professional broadcasters working with professional equipment, the College offers such a plan of training in television. The course of study is designed to equip the student with the basic skills and knowledge in production, performance, and program planning to enable him to secure employment and perform satisfactorily in any one of several jobs in the average small and medium-sized television station. The entire training program is based on the familiar and well-proven principle of "learning-by-doing." Facilities include the following:

Completely equipped professional TV production studio and master control room
Two professional television studio cameras
Complete lighting system
Professional audio components
Monitoring and switching equipment
Turntables and audio control console
Film projector and film splicing and editing equipment

Further enriching the training in television, the Broadcasting Department maintains a closed-circuit television system known as WERS-TV. This activity, under supervision, is the responsibility of advanced television students, who thus obtain a worthwhile type of practical television experience.

SEMINARS IN CONTEMPORARY BROADCASTING

A series of eight seminars on important areas of contemporary broadcasting is held on the second Tuesday evening of each month from October through May. At each seminar prominent national figures in network broadcasting, station operation, production agencies, and advertising, discuss informally problems and conditions in present-day broadcasting. These speakers provide an important opportunity for Emerson students and all others interested in broadcasting to broaden their knowledge of the field. A list of the lecturers appearing in last year's seminar series appears on pages 15-16.

SPEECH DEPARTMENT FACILITIES

The Speech Department has sound-proof listening rooms where students from all departments may practice and may compare the recordings made of their voices from time to time. It also has a speech science laboratory used for the making of recordings and for studying the anatomy of the speech and voice mechanism. The facilities of the Broadcasting Department also are available to the Speech Department for the coordination of speech and broadcasting work.

THEATRE ARTS FACILITIES

The Department of Theatre Arts at Emerson College offers the student experience in all forms of theatrical presentation. It maintains the teaching principle of applying theory to practice with practical and theoretical courses interrelated so that the student will be qualified to engage in the professional or educational theatre.

Theatre and Its Workshops

The work of the Theatre Arts Department is centered around the College theatre. The theatre is intimate in type — well equipped and adaptable to a wide range of production techniques, from simple arena style to multi-set productions. On the stage of this theatre Emerson students appear regularly before college and public audiences. The programs offer an unusual public service with educational aims to the city of Boston and near-by communities. A list of last year's productions may be found on page 35.

In addition, Emerson Theatre Arts students frequently present readings, one-act plays, pantomimes, and lectures before clubs, church groups, and schools.

The scene shop, where stage scenery and accessories are built and painted, is adequately equipped with power tools and necessary facilities. Here students receive practical training in constructing scenes which have been designed especially for current College productions. In addition to the scene shop, the department maintains two scenery storage lofts and various property rooms where stage furniture and scenic effects are stored.

Adjoining the back stage of the theatre are the make-up rooms, fitted with individual tables, lights, and mirrors. Class instruction is offered in the modern techniques of stage and television make-up.

Costume Department

The Theatre Arts Department maintains an extensive costume wardrobe, including a large number of authentic period costumes and accessories. There are rooms in which students design, cut, fit, dye, paint, and execute new costumes for current productions. These rooms are equipped with sewing machines, cutting tables, and other sewing equipment. A costume library containing books, photographs, and pictures of unusual value is available to students for research.

Theatre Arts Collection

In conjunction with the College library, the Theatre Arts Department has a theatre collection expressly for the use of the students in the department. The collection includes acting editions of classic and modern plays, slides of stage and costume design, theatrical prints, and programs, plus periodicals and bulletins relating to the theatre and the stage. The George Brinton Beal Collection of rare theatrical programs also is included in the collection.

Film Series

As part of its public production program, the Theatre Arts Department sponsors the monthly Sunday-night Film Series. The series, which is open to all students as well as the public, includes great domestic and foreign films. Last year's series included *Seven Brides for Seven Brothers, The Glass Slipper, Green Pastures,* and *Prince of Players.*

ROBBINS SPEECH AND HEARING CLINIC AND OTHER FACILITIES

The value of teacher training in speech pathology and audiology depends to a large extent upon ample observation, practice teaching, and practice supervision of a wide variety of speech and hearing problems. All majors in speech pathology and audiology must complete a minimum of 200 hours of practice teaching. To provide this training for Emerson students, the Robbins clinic was opened in 1953. This clinic occupies two floors at 145 Beacon Street, with offices, teaching rooms, parents' waiting room, a sound-proof room, and a spacious observation room where students and visitors may watch through the one-way mirror vision glass the lessons being given by advanced students.

Speech Pathology and Audiology

Each therapy major must purchase a therapy kit at the beginning of his sophomore year. This kit forms a nucleus to which other materials are added for use during the student's advanced study and in his profession. The Robbins clinic has other materials and equipment for loan to students and has models of throat, brain, and palate and a Revere tape recorder for use in making instruction in therapy graphic and dynamic. A Sumner Pneumograph and Marey Tambour are used to record breathing patterns in stuttering and voice cases; a Stoelting Cardio-pneumo-polygraph, registering breathing rate, pulse, and blood pressure, is used for research purposes.

A variety of electronic equipment is available to students majoring in audiology, including:

Maico D-5 pure tone audiometer
Qualitone pure tone and speech audiometer
Beltone clinical audiometer Model B
Psychogalvanometer
Group auditory training unit
Warren gated amplifier
Two Ideal auditory training units

A large model of the human ear, showing the detailed anatomical parts, aids students in an understanding of hearing problems. Skill in the use of all these devices, under careful professional supervision, is a vital part of clinical experience.

Medical Lectures

An annual series of lectures by famous medical specialists in areas related to speech and hearing is given primarily for the benefit of students majoring in speech pathology and audiology but also is open to the public. These lectures are held monthly during the fall and winter.

Community Services

The Robbins clinic not only offers a free hearing test for each Emerson student and free instruction to any student in the College who shows a speech difficulty but provides at minimum cost a complete diagnostic examination of speech, hearing, and mental capacity and gives indicated therapy for over 200 New England children and adults. In addition, advanced clinicians having a B— average in their college studies are eligible to be a part of mobile units which under professional supervision provide clinical assistance in speech and hearing to aphasic, brain-injured, and cerebral-palsied individuals at the Holy Ghost Hospital in Cambridge and the Industrial School for Crippled Children in Boston, and to patients in the Esophageal Speech Clinic of the Massachusetts Eye and Ear Infirmary.

These mobile units make surveys at low cost, upon request to the Department of Speech Pathology and Audiology, to determine the need for employing full-time speech and hearing therapists in public school systems in the Boston area.

Through its affiliation with the United Cerebral Palsy Association of Boston and with the Cleft Palate Institute of the School of Dental Medicine of Tufts University, for which Miss Catherine C. Perry is speech pathologist and which refers all its patients to the Robbins clinic for therapy, and through referrals from medical specialists, the clinic increases the scope of its rehabilitation program in the community.

Sigma Alpha Eta

In November 1957, the Department of Speech Pathology and Audiology was granted a charter for Beta Delta Chapter of Sigma Alpha Eta, a national honorary fraternity for men and women preparing to be speech and hearing therapists.

Aid to Speech Therapy

This organization, including not only alumnae but other women interested in aiding the speech handicapped, was founded in 1952 for the express purpose of sponsoring the Robbins Speech and Hearing Clinic. Its principal fund-raising project is a large benefit luncheon held each spring. Mrs. Herbert I. Margolis of 816 Commonwealth Avenue, Newton, is the current president.

ENGLISH DEPARTMENT

Emerson College is one of the few liberal arts colleges, perhaps the only one, which requires four years of English, a natural emphasis in an institution specializing in the speech areas. At Emerson there is a reciprocal working relationship between English and the study of speech in its various forms, each one influencing the teaching of the other. The plays, recitals, and broadcasts, which the Emerson student attends or in which he takes part, help him in his study of the drama and poetry, in the writing of verse and the short story. The study of English literature in its turn is the foundation of all his work in speech and drama courses.

STUDENT RESIDENCES

The College maintains supervised student residences for freshman and sophomore men and for all women. The largest women's dormitory, Emerson Hall, a six-story building, is located at 373 Commonwealth Avenue, within walking distance of the College. Southwick Hall at 303 Berkeley Street, Ross Hall at 145 Beacon Street, and 143 Beacon Street are directly opposite the College. The freshman men's dormitory is at 317 Beacon Street; the sophomore men's dormitory is at 29 Gloucester Street. Breakfasts and dinners are served, with menus prepared for the women's dormitories by an experienced dietitian. Adequate lunches may be obtained at cafeterias and restaurants in and near the College buildings.

COUNSELING

The Counselor for Men and the Counselor for Women arrange interviews with new students as early as possible in the academic year, and members of the faculty and administration may refer students to the counselors from time to time. The counselors stand ready to consult with students about their problems, whether academic, family, or personal in nature; each student is assured of a sympathetic hearing. In addition to his counselor, every student has a faculty advisor who is glad to assist in planning programs and with other problems.

HEALTH DEPARTMENT

The College maintains a clinic at 128 Beacon Street, under the direction of graduate nurses, who are in turn under the direct supervision of the College Physician. The nurses hold regular clinic hours at Emerson Hall and are available there in case of emergency. Arrangements may be made for the care of students in the dormitories in case of minor illnesses; in case of serious illness, the student is transferred to his home or to a hospital.

The College provides clinic facilities and services only. Additional treatment or advice by a physician outside the clinic is paid for by the student.

The Physical Education Department may require an examination by the College Physician in addition to the physical examination required for admission. All physical and medical reports form a part of the student's permanent record.

HEALTH INSURANCE

Group accident and health insurance is available. The purpose of this plan is to protect the students and their parents against the expense of the more costly illnesses or injuries. The premium is nominal. Information on the Student Insurance Plan is mailed to the home of each student the latter part of the summer. Coverage is effective throughout the academic year, including vacation periods.

PLACEMENT OF GRADUATES

The College offers a placement service to students and alumni, without charge. All students should register during their senior year. Each registrant has on file a folder containing records of his training and experience and recommendations of faculty and employers. Credentials are sent to prospective employers either at their request or the request of the student.

The Emerson graduate combines a sound education with an employable level of professional competence in his major field, as indicated by the fact that the great majority find their career in their professional area.* Many continue their study on graduate level†, while others find their Emerson education a special advantage in such fields as sales promotion, public relations, and personnel work. Emerson has long been known for the fine teachers it has sent into public schools, private schools, and colleges in drama, English, speech, and other subjects.

SUMMER SESSION

The annual summer session from early July to mid-August offers concentrated study in the areas of professional specialization and in related fields on both graduate and undergraduate levels. The program is of especial value to in-service teachers and to others directly concerned with these areas. Of special interest are the drama and basic speech courses open to high school students without credit. For complete information, address the Director of the Summer Session.

EVENING AND EXTENSION DIVISION

The College offers courses in its Evening and Extension Division in the fall and spring semesters; these courses allow college credit to secondary school graduates and may be applied toward degree requirements. By meeting admission standards, a student may begin his bachelor's degree course in the evening and complete it by transferring to the day program; he must allow at least two years of study in the regular session in order to meet specific requirements of the degree and major. The Evening and Extension Division includes a two-year certificate program in the Communication Arts (60 credits), a one-year certificate program in Broadcasting (30 credits), general liberal arts and professional courses, and teacher-training courses. For complete information, address the Director of the Evening and Extension Division.

---

* A recent survey indicates that 65% of Emerson graduates are employed in one of the four areas.

† A recent survey indicates that 28% of Emerson graduates continue their studies beyond the undergraduate level.

BULLETIN

The College *Bulletin* is published eight times a year. Five issues are devoted to the activities of the alumni and are sent to them; three issues, designated as college catalogues, describe the regular, the summer, and the evening and extension curricula.

STUDENT LIFE

ACTIVITIES CALENDAR

Representatives of the faculty, the administration, and all student organizations with the president and secretary of the Student Government form the Activities Coordinating Committee which controls extracurricular activities of the College and fixes the social calendar for each semester. The variety and range of activities is unusually extensive. Each student has ample opportunity to work for the success of some event and to develop social poise, as well as to participate in recreational activities essential to the well-rounded personality.

ACTIVITIES HOUR

Each week on Monday at eleven o'clock, a free hour is scheduled in order that students may have meetings of organizations and plan extracurricular events.

ALLOCATION COMMITTEE

Representatives of all student organizations and the Student Government officers form the Allocation Committee which supervises the disbursement of the activities fee.

ATHLETICS

Emerson carries on a program of intercollegiate athletics for men with colleges of similar size in basketball and baseball, under the direction of an experienced coach.

The governing body for intercollegiate athletics is the Emerson College Athletic Association. All students become members of the Association when they pay the required student activities fee. This entitles them to admission to all home games and permits them to try out for teams. A system of student managerships is maintained and a number of awards for outstanding performances are made.

CHORIC SPEECH CHOIR

A choric speech choir, the only such college organization in the East, holds weekly rehearsals and gives performances at the College and for the public at churches, clubs, and other organizations.

CONVOCATION

Weekly convocations, held in the Emerson Theatre each Friday at eleven, include the Southwick Recital Course, addresses by prominent speakers from outside the College, student panel discussions, debates, one-act plays, and student recitals.

DEBATE

The Emerson Debate Council supervises the activities of the debate and discussion groups. The Emerson Forensic Council is one of the original members of the Greater Boston Forensic Association, an organization designed to stimulate competitive speech activities in the colleges in the Greater Boston area. Regularly scheduled Saturday afternoon debates provide experience for both novice and varsity debaters. In recent years, the Emerson forensic group has consistently won awards at the National Invitational Forensic Festival at Fredericksburg, Virginia, the New England Forensic Conference, and the American International College Tournament.

FREE HOURS

Because of the important role of student organizations, chapel, and convocation, the eleven-o'clock hour on Monday, Wednesday, and Friday is kept entirely free of classes and faculty and administrative appointments in order that students, faculty, and administration may participate in these activities. No other commitments may be made at those times.

FRESHMAN ORIENTATION

An intensive orientation program for freshmen continues throughout registration week. There are aptitude, speech, hearing, and placement tests, social affairs, and discussions by members of the faculty, administration, and Student Government Council of courses of study in the different major fields and of traditions, procedures, and college life in general.

GREEK LETTER SOCIETIES

There are six social fraternities, three for men and three for women; membership in four of them requires specific competence or concentration in one of the speech areas. Complete information will be found in the College *Handbook*.

PUBLIC DRAMATIC PRODUCTIONS

Students of the Theatre Arts Department appear on the Emerson stage in a varied selection of plays before a metropolitan audience.

The 1958-59 season included four major production: *Orpheus Descending, Love For Love, Uncle Vanya,* and the spring musical, *Bloomer Girl,* presented at New England Mutual Hall. The season also included six studio performances, produced and directed by students. Among the six were *The Chairs, The Land of the Heart's Desire,* and *Don Juan in Hell.*

Other productions included showcase scenes by the sophomore and freshman classes, a play for children which went on tour, and a program of original one-act plays, *Playwrights' Workshop.*

PUBLICATIONS

Three publications are written, edited, and published by undergraduates. *The Berkeley Beacon,* student newspaper "founded by and for the students of Emerson College", is issued frequently during the college year; the yearbook, *The Emersonian,* is a project of the senior class. *Scribe,* a literary quarterly, presents stories, poems, plays, and articles written, for the most part, by undergraduates but occasionally by guest authors.

The *Handbook* is a joint publication of the administration and Student Government. It is designed to be an informal, intimate guide to campus activities and to acquaint the student with College rules and regulations.

RELIGIOUS TRADITION

Throughout its history Emerson College has preserved the religious tradition. Regularly scheduled devotional exercises are an important part of student life and serve as Emerson's recognition of the place of worship in any educational program.

Religious exercises are held three Wednesday mornings each month at eleven. The services, non-sectarian and non-denominational in nature, are conducted by members of the College with visiting leaders in the religious thought of various faiths as speakers. Music is supplied by the College choir.

Chapters of the Hillel Foundation, the Newman Club, and the Student Christian Association within the College serve Jewish, Catholic, and Protestant students. Rabbi Samuel Perlman, The Reverend Norman J. O'Connor, and The Reverend Frank Walker act as advisors to these groups. The eleven o'clock hour on the first Wednesday of each month is reserved for meetings of these organizations. Their activities are coordinated by the Interfaith Council. Churches and young people's activities to meet the needs of all faiths are convenient to the College.

SINGING CHOIR

A singing choir holds weekly rehearsals and participates at all chapel services. It also presents musical programs on other occasions, particularly at the several annual all-college convocations.

SOUTHWICK RECITAL COURSE

In order to afford Emerson students and the Boston public generally an opportunity to hear great dramatic masterpieces read by outstanding interpreters of dramatic literature, Dr. Henry Lawrence Southwick in 1900 inaugurated the Southwick Recital Course. This course, the first of its kind in Boston, has continued in unbroken succession.

STUDENT GOVERNMENT

The Student Government Association has developed a well-formulated plan of self-government which provides opportunity for democratic solution of student problems and also serves to develop student initiative and responsibility. All degree candidates automatically become members of the Student Government Association upon payment of the required student activities fee. The officers, together with the four class presidents, form the Student Government Council which cooperates closely with the faculty and administration in matters of general college welfare. All-college student government meetings are held at eleven o'clock the first Monday of each month.

Each dormitory has a House Council composed of president, vice president, secretary, treasurer, and two representatives from each floor. The house director is an *ex officio* member and acts in an advisory capacity only.

TRADITIONAL EVENTS AND HONORS

The following events are of traditional importance at Emerson:

"Beanie Day" Convocation In September. Freshmen receive their caps, signifying formal admittance to the student body.

Interclass Dance Sponsored by the Student Government Association as the major social event of the fall semester.

Founder's Day In November, the month of the birth and death of Charles Wesley Emerson, founder, and for twenty-three years president, of Emerson College. Academic convocation at which honorary degrees are conferred; homecoming for alumni.

Christmas Carol Program In December, just before the Christmas holidays. A program of Christmas carols led by the College choir.

Junior Prom The student body elects a junior as Prom Queen, and she and her attendants are the center of appropriate ceremonies that evening.

Cap and Gown Day In April. Donning of caps and gowns by the seniors, looking toward commencement.

May Day On or about May 1. Dance program by the Department of Physical Education.

Hand-Me-Down Day In May. The president of each organization "hands down" his office to his successor, explaining its duties and responsibilities. Extracurricular awards.

Commencement Commencement honors include the President's Prize, established by Harry Seymour Ross, awarded to the member of the graduating class who in character, personality, and quality most nearly squares with the Emerson ideal. The Broadcasting and Theatre Arts Departments give a special award to the senior who is considered to have made the greatest contribution in each field. The class marshal, traditionally a junior, is elected by the senior class, and the senior who best combines high scholarship with speech proficiency is the commencement speaker for the class.

Bachelor's Degree Requirements

Emerson College offers to men and women a general four-year course of undergraduate instruction leading to the degree of Bachelor of Arts, Bachelor of Science in Speech, Bachelor of Literary Interpretation, or, in cooperation with the Longy School of Music in Cambridge, Bachelor of Music (see page 42). It also offers the Master of Arts and Master of Science in Speech degrees, information about which will be found on pages 55-57.

General Requirements for the Bachelor's Degree

Following are the general requirements for the bachelor's degree:

1. A minimum of one year in residence for the B.A. or B.S. in Speech degree and of two years in residence for the B.L.I. degree.
2. The final semester in residence.

‡3. A grade of at least C in a proficiency examination in written English*, taken between the beginning of the fifth and eighth semesters. This test, given once each semester only, is an attempt to make sure that every Emerson graduate is at least moderately proficient in writing English.

‡4. Satisfactory completion of a speech proficiency test*† taken during the sixth semester.

5. Completion of 136 credits, with a minimum of 227 quality points, or a C— average; 6 credits in the major field must be on senior level (see pages 39-41 for distribution requirements) and 90 credits must have a grade of at least C—.
6. Recommendation of the Faculty approved by the Board of Trustees.

---

* Unless the candidate is certified as exempt from this requirement by the chairman of the department.

† A half-hour speech examination, consisting of: (a) voice and articulation, (b) impromptu speaking, and (c) extemporaneous speaking. Students who do not pass this test will be required to take additional work in the areas of their individual weaknesses.

‡Not required for the Bachelor of Music degree.

Bachelor of Music Degree

Through affiliation with the Longy School of Music, which since 1932 has offered a diploma in music and always has had an excellent standing in this field, Emerson College offers the degree Bachelor of Music. About three fourths of the work is taken at the Longy School, located in Cambridge near Harvard Square. Degree candidates may major in piano-organ, orchestral instrument, or voice. They must meet the admission requirements both of Emerson and of Longy as well as academic requirements as specified by both schools. Following is a brief summary of the credits required; for complete information, please address Mr. Kalman Novak, Longy School of Music, 1 Follen Street, Cambridge, Massachusetts.

Speech Pathology and Audiology Certification Program

(Undergraduate and graduate; Basic and Advanced Certificates of the American Speech and Hearing Association).

The requirements for a major in Speech Pathology or Audiology are the same as the academic requirements for the Basic Certificate of the American Speech and Hearing Association.* All Speech Pathology or Audiology majors are qualified, upon graduation, to apply for the Provisional Basic Certificate which may be shown to prospective employers until the required year of professional experience after graduation has been satisfactorily completed, when they receive permanent certification.

The course of study leading to the master's degree in Speech Pathology or Audiology meets the academic requirements for the American Speech and Hearing Association's Advanced Certificate in Speech or Hearing, provided the student already has met the academic requirements for the Basic Certificate. After earning the master's degree, the teacher should preregister each year of professional experience with the American Speech and Hearing Association until he has accumulated four years of successful professional experience, when he will be entitled to receive the Advanced Certificate.

---

* Majors in Speech Pathology or Audiology should apply to the chairman of the department for complete information about the membership requirements of the American Speech and Hearing Association.

Admission, Academic, and Residence Requirements

ADMISSION

ADMISSION PROCEDURE

The Committee on Admissions acts on all applications for admission, on both undergraduate and graduate level. Inquiries regarding admission and all correspondence concerning entrance requirements and transfer of credits from other colleges should be addressed to the Director of Admissions.

FRESHMAN AND TRANSFER STUDENTS

Selection of freshmen is based upon an evaluation of the following factors; transfer students also must meet these requirements:

1. A transcript of secondary school record, showing graduation and including the principal's recommendation of ability to carry successfully work of collegiate grade
2. Certification of 16 formal units* of preparatory study, as follows:

English	4	
One foreign language	2	
Mathematics or science	2	
Social sciences	1	
Other in above areas	4	
	—	13
Other areas (1 each in such fields as art, Bible, business, music, speech, etc.)		3
		—
		16

3. Scholastic Aptitude Test of the College Entrance Examination Board (verbal and mathematical sections)

---

* A unit represents the study of a subject a full school year, four or five periods a week, or the equivalent.

4. Two letters of character recommendation from persons of recognized standing
5. Health reports, completed by the parent or guardian and by the family physician and approved by the College health department. Vaccination within 3 years of admission; a chest X-ray within a year of admission or at Emerson in the fall following admission
6. A personal interview, if required by the Director of Admissions, with a College officer or an accredited representative of the Alumni Association

Information concerning the Scholastic Aptitude Test may be obtained from the College Entrance Examination Board, Box 592, Princeton, New Jersey, or Box 27896, Los Angeles 27, California, and arrangements should be made to take it well in advance of the prospective date of admission. Achievement tests are not required, but if these are taken the results also should be submitted.

Each applicant is considered individually; therefore the Committee on Admissions may make exceptions to certain of these requirements in unusual cases. A student presenting not less than 14 units meeting distribution requirements may be admitted on condition.

An applicant for admission by transfer must present an official transcript of his college record, a catalogue, and evidence of honorable dismissal. Transfer credit is not allowed for any work in which the applicant has not received a grade equivalent to C (73-76) at Emerson College.

ADMISSION TO THE SECOND SEMESTER

A limited number of properly qualified candidates may be admitted to the second semester of the academic year. Every effort is made to assist these new students to arrange programs that will be of greatest benefit, but the College assumes no obligation to provide an orderly sequence of required courses for those who enter the second semester. Occasionally, but not always, such students find it necessary to attend a summer session in order to complete requirements within four years.

ACADEMIC REGULATIONS

CLASS STANDING

Full freshman standing is assigned to students who have satisfied entrance requirements and who do not have advanced class standing. Such standing is assigned to students transferring with the following credits: 27, Sophomore; 61, Junior; 95, Senior. Students remain in the academic class to which they are assigned upon admission, except that upon graduation either earlier or later than the year of their class they may choose the class to which they wish to belong.

CONDITIONED STANDING

Students with entrance deficiencies are considered conditioned until the conditions are removed. Removal of such conditions should be accomplished by the end of the second year.

DECLARATION OF MAJOR AND MINOR FIELDS

By the end of his sophomore year, each student is expected to have filed with the Registrar his choice of major and minor and to have demonstrated his familiarity with the requirements of the field selected. Any changes in objective should be recorded immediately in the Registrar's office and must have the approval of the departments concerned. Information about the requirements in major and minor fields may be found on pages 40-41.

ENROLLMENT IN COURSES

Students may not enroll in courses in advance of their standing except by permission of the instructor and the Registrar.

STUDY LOAD

The basic freshman program provides for a study load of 17 credits the first semester and 15 the second, with one credit added for exercise at the end of the year; it is possible to add a one-credit course the first semester or a two-credit course the second semester, making a total of 18 each semester.

A student ordinarily is not permitted to carry more than 18 credits, excluding physical education; exception to this rule usually will not be made for any student in his first semester. After he has demonstrated his ability to carry a program of 17 or 18 credits with at least a B average, and with the recommendation of his Counselor, approved by the Committee on Student Standing, a student may be permitted to elect a limited number of additional credits.

CHANGE OF COURSES

New students may make changes in selection of courses, without charge, during the first week of a semester. Former students are charged a fee of $1 for any schedule change made between registration day and the end of the first week of the semester. Any student who makes a change in courses during the second week of the semester will be charged a fee of $5.

After the first two weeks of the semester petitions to drop or add courses are granted only for extraordinary reasons, subject to the approval of the instructors concerned.

No student may change his program in any way without approval of the Registrar. Any course which is discontinued with permission of the Registrar later than the end of the second week of a semester will be recorded as WP (withdrawn passing) or WF (withdrawn failing). If dropped without approval, it will be recorded as F (failing). In either case no adjustment of tuition will be made.

After assignments for clinical practice have been made, no student majoring in Speech Pathology and Audiology may make any schedule change that will conflict with such assignments.

After mid-semester, individual courses may not be officially removed from the student's schedule for any reason whatever; but, if failure to complete a course is due to illness or any unavoidable circumstance, application may be made to the Registrar and to the instructor concerned for special consideration.

WITHDRAWAL

Official withdrawal from the College is arranged by filing in the Registrar's office a withdrawal form obtained there, signed by the student, by the person responsible for payment of his tuition and fees, and by the appropriate counselor; the withdrawal becomes effective five days from the date on which it is filed in the Registrar's office. Students are expected to leave the dormitory on the effective date of withdrawal. When withdrawal from College is done officially in this way, all courses are recorded as W (withdrawn). When withdrawal is unofficial, namely, simply by discontinuing attendance at classes, all courses are recorded as F (failing).

ATTENDANCE

Students are expected to be prompt and regular in attendance at all classes. A record of attendance is kept as a part of each student's permanent file.

Attendance normally is taken into consideration in determining a student's grade. The number of absences permitted without lowering the grade is determined by each instructor in accordance with the nature of the subject.

In case of prolonged absence due to illness, the student should confer with the Registrar and with his instructors immediately upon his return to the College. Every possible adjustment will be made to permit him to complete the work lost and to re-enter courses without loss of credit.

EXAMINATIONS

Only a student who informs the Registrar in advance of an acceptable reason for missing a semester examination and who receives permission from the Committee on Student Standing will be permitted to take a special examination; written explanation must be filed with the Registrar before a special examination may be taken. Semester examinations for which no make-up is permitted will be recorded as failed; this failure will be included in computing the grade for the course. A fee of $3 is charged for each special examination, and such examination ordinarily may not be taken later than one month following the date of the first examination. Complete regulations regarding examinations are published in the *Handbook.*

A student who has failed a course may not remove this failure by taking another examination but must repeat the course or take another course that is accepted as a substitute by the instructor and the Registrar.

GRADES

Reports of academic grades are issued for all students in good financial standing at the close of each semester. These reports ordinarily are sent to the person responsible for payment of tuition and fees.

The following grading system is used:

Letter Grade	*Numerical Equivalent*	*Quality Points**	*Academic Index*
A+	97-100	13	4.2-4.5
A	93- 96	12	3.8-4.1
A–	90- 92	11	3.5-3.7
B+	87- 89	10	3.2-3.4
B	83- 86	9	2.8-3.1

‖ Incomplete; becomes F if no other grade substituted during succeeding semester

TRANSCRIPT OF RECORD

A student in good financial standing may receive one transcript of his academic record without charge; official transcripts are not released to students but are sent as directed by the student. For each additional transcript, a charge of $1 is made.

ACADEMIC PROBATION

Any student with a semester average less than C— is placed on academic probation until he attains a semester average of at least C—. The Committee on Student Standing may limit a student on academic probation to a study load of not more than 16 credits and may restrict participation in extracurricular activities. This Committee may recommend that the faculty drop from the College any student whose semester average remains below C— for two successive semesters.

ACADEMIC DISTINCTION

The Dean's List is composed each semester of full-time undergraduate degree candidates who for the preceding semester have earned an average of B+.

Graduation honors are awarded to students who have completed a minimum of two years in residence, as follows: Graduation average of B+, Honors; of A—, High Honors; of A, Highest Honors.

COURSES IN OTHER INSTITUTIONS

Emerson students may take courses in other institutions for transfer credit only with the written approval of the Registrar. A grade equivalent to C (73-76) at Emerson College is the minimum accepted for transfer credit, and an official transcript and a catalogue of the college attended are required.

VISITORS

Visitors from outside the College are welcome to attend classes with the permission of the instructor or the Registrar. Students may occasionally visit classes in which they are not enrolled with the permission of the instructor or the Registrar.

COLLEGE CITIZENSHIP

All students are expected to have a definite educational purpose. It is assumed that all students are willing to subscribe to the following: *A student is expected to show both within and outside the College respect for order, morality, and the rights of others, and such sense of personal honor as is demanded of good citizens.* The College reserves the right to exclude at any time a student who fails to comply with regulations or whom the Committee on Student Standing considers an undesirable College citizen.

Plagiarism or cheating is a serious offense which will result in an F for the course; an official record of such action becomes a part of the student's permanent file. Repeated offenses will result in dismissal from the College.

DRESS

Dress for both men and women must be suitable for an urban college. For women, suits, tailored dresses, sweaters and skirts, and practical shoes are acceptable for street and classroom wear; slacks and bluejeans are not considered suitable for city wear and will not be allowed in the classroom nor in the College buildings except at rehearsals and similar activities. For men, business dress is required in winter and in warm weather dress suitable in a hotel. Dungarees never are acceptable except in workshops.

MARRIAGE

Any student planning to marry during the College year or summer session must first register his intentions with the Counselor for Men or the Counselor for Women, with the written approval of his parents or guardian if he is not of age. Failure to make this registration will result in instant dismissal from the College.

KNOWLEDGE OF REGULATIONS

Students will be held responsible for a knowledge of all regulations as published in the catalogue, *The Berkeley Beacon,* or *Handbook,* posted on bulletin boards, announced, or otherwise made known. A lack of knowledge of regulations does not exempt a student from penalties resulting from non-fulfillment of obligations.

RESIDENCE REGULATIONS

RESIDENCE REGULATIONS FOR ALL WOMEN AND FOR FRESHMAN AND SOPHOMORE MEN

Women students and freshman and sophomore men students under 21 years of age who do not live at home or with immediate relatives are required to live in the College residences. Students over 21 years of age at the opening of the College year may obtain through the Counselor for Men or the Counselor for Women permission to live outside the College residences; students residing in a dormitory in September may not withdraw from it during the year. All students are expected to record definite information concerning their residence plans well in advance of the opening of College, certainly by August 1.

A woman student not living at home or in the College residences must present a statement from her parents approving specifically any arrangement made and, if she is to live with relatives or friends, they also must present a statement confirming the arrangement and accepting full responsibility for her. Parents of students living outside the College dormitories accept full responsibility for behavior in accordance with Emerson standards and agree to inform the College of any change in status. It is essential that the College have up-to-date addresses for its students at all times.

If for any reason the dormitory facilities chosen are not available in the fall, the College reserves the right to assign other rooms as nearly equivalent as possible.

The College provides chairs, bureaus, beds, and study tables. The student supplies rugs, curtains, lamps, metal wastebaskets, clothes driers, blankets, bedspreads, and all linen. Windows facing the street should have plain glass curtains.

No pets of any kind are permitted in the dormitories.

Resident students are responsible for their own laundry. Students have the use of a Bendix automatic washer and of a dryer. These operate as coin machines. For those who wish, a reputable commercial laundry supplies two sheets, a pillowcase, two bath towels, and two hand towels each week during the academic year at a reasonable price. Announcements regarding this service are mailed directly to students by the laundry during the summer.

All dormitories have AC electric current. Permission to use electric appliances of any kind must be obtained from the resident directors.

All luggage and parcels should be sent to the dormitory to which a student has been assigned rather than to the College office. Trunks must be plainly and permanently marked; tags are not sufficient.

Because of traffic and garaging difficulties in Boston, students are strongly advised not to bring cars.

The dormitories are open to students the day preceding registration day and remain open throughout the academic year except for the Thanksgiving, Christmas, and spring vacations. Students remaining in Boston during these vacations must make arrangements acceptable to their parents and to the College officers.

If a student leaving the College at the end of the first semester does not remove personal belongings from the dormitory by the first day of the second semester, a storage fee will be charged. A nominal fee will be charged for packing ready for shipment any personal belongings left by a student who has withdrawn. Upon receipt of this fee and any storage fee the goods will be shipped to the owner C.O.D.

The College reserves the right to inspect the room of any student at any time.

Complete dormitory regulations are included in a separate publication distributed to students and their families at the beginning of each year.

RESIDENCE REGULATIONS FOR JUNIOR AND SENIOR MEN

Junior and senior men students who do not live at home or with immediate relatives are required to live in houses approved by the College. The Director of Admissions is glad to suggest locations on the approved list. Rooms range in price from $9 to $15 a week and at least $15 a week should be allowed for meals, obtainable in near-by restaurants.

The College reserves the right to inspect the room of any student at any time.

Graduate Division

A holder of a bachelor's degree from an institution of recognized standing may enroll in graduate-level courses upon acceptance of his application by the Committee on Admissions. An undergraduate in his final semester may enroll for a combination of graduate and undergraduate courses with the approval of the Graduate Study Committee.

A complete curriculum for graduate study in speech pathology and audiology is offered in a combination of summer and evening classes. These courses are especially for the classroom teacher wishing to enter this professional field.

GRADUATE DEGREE CANDIDACY

Emerson College offers the degrees of Master of Arts and Master of Science in Speech, in Broadcasting, Speech, Speech Education, Speech Pathology or Audiology, and Theatre Arts. The master's degree in Speech is of especial interest to students wishing to concentrate in areas of this field other than teaching. Candidates for the master's degree must be accepted by the Committee on Graduate Study, following approval of a proposed plan of study and the recommendation of the chairman of the major department.

GENERAL REQUIREMENTS FOR THE MASTER'S DEGREE

Following are the general requirements for the Master of Arts and Master of Science in Speech degrees:

1. Acceptance as candidate by the Committee on Graduate Study
2. Acceptance of thesis subject by the Committee on Graduate Study
3. Fulfillment of undergraduate prerequisites as prescribed by the chairman of the department of concentration

4. Certification of speech proficiency by the Speech Department†
5. Completion* of 30 graduate credits, a minimum of 20 in the field of concentration and a maximum of 10 in related fields, including Edu 555, *Introduction to Graduate Study, 2 credits*
6. Oral dissertation at a convocation of students and faculty on some phase of the candidate's major field
7. Thesis
8. Final oral examination based upon the thesis and the student's educational background in his major area

An additional requirement for the Master of Arts degree is: Presentation of 12 college credits or the equivalent in one foreign language acceptable to the Graduate Study Committee.

SPECIFIC REQUIREMENTS IN MAJOR FIELDS

In addition to general requirements, the following specific requirements must be met:

SPEECH EDUCATION

Spe 515/516	*Debate Clinic*	2 *credits*
Spe 405	*Classical Rhetorical Theory*	2 *credits*
Spe 406	*Mediaeval, Renaissance, and Modern Rhetorical Theory*	2 *credits*

SPEECH PATHOLOGY OR AUDIOLOGY

See *Course Requirements for Avanced Certificate in Speech or Hearing of the American Speech and Hearing Association, pages 44-45.*

THEATRE ARTS

Comprehensive three-hour examination, two hours concerned with factual information in the general field and one hour allowed for writing an essay on the student's specific area in the field. Examination given in April of the final year.

THESIS

The thesis required for the master's degree must indicate a scholarly effort on the part of a graduate student to familiarize himself with some area in his field and to present it in acceptable form as at least a minor contribution to the world's sum of knowledge. The topic must be sufficiently limited in scope to ensure a thorough examination of all pertinent material, and to make possible valid new conclusions.

---

† Includes Spe 102, *Principles of Oral Expression.*

* A minimum grade of B– is required for each course. The Registrar and the chairman of the major department must approve all programs. Graduate work must be completed within 5 years of the date of matriculation. A maximum of 6 credits may be accepted in transfer (fee $2.50 for each credit so accepted).

The student is expected to initiate every stage of his effort, but his work will be supervised by a major advisor. Directed studies, seminars, and research projects, or a combination of these, are the usual means for effecting the study. The nature of the subject and the requirements for its adequate treatment will determine the length of the thesis, which must conform to the specifications of the Committee on Graduate Study.

Upon the recommendation of the major advisor, a student of exceptional ability may be permitted to do creative work in lieu of the usual research thesis.

GRADUATE FELLOWSHIPS

A limited number of graduate fellowships are available. The stipend of $100-$450 per semester is credited on the term bill; the duties consist of 3-6 hours per week teaching and assisting in one of the following departments: Broadcasting, Speech, Speech Pathology and Audiology, or Theatre Arts. Following acceptance by the Committee on Admissions, application should be made in writing, by May 15, to Dr. Coleman C. Bender, *Chairman of the Graduate Study Committee.*

TUITION AND FEES

The tuition fee is $450 per semester for a total of 12-18 credits; the cost per credit is $25. For complete information about expenses see pages 91-92-93.

Curriculum

GENERAL PLAN

In general, courses with the numbers 101 through 199 are on freshman level, 201 through 299 on sophomore level, 301 through 399 on junior level, 401 through 499 on senior level†, and 501 through 599 on graduate level.

Undergraduates may enroll in graduate courses with the permission of the instructor and the Registrar; graduate students may elect certain advanced courses not on graduate level for graduate credit by arrangement with the instructor, the Committee on Graduate Study, and the Registrar. Undergraduate courses taken for graduate credit require individual conferences with the instructor and readings, assignments, or papers beyond the requirement for undergraduate credit. A grade of at least B— is required for graduate credit.

A credit ordinarily is the academic value of 15 hours of class work plus assignments, readings, and examinations. Thus during the fall and spring semesters a course meeting once a week ordinarily carries one credit, and one meeting three times a week carries three credits. If an individual course has more or less than the normal number of weekly meetings, this is stated in its description.

Required courses with rare exceptions must be taken on the class level indicated, i.e., Eng 201-202, *History of English Literature,* in the sophomore year.

Courses with odd numbers, i.e., 101, ordinarily are offered in the first semester and with even numbers, i.e., 102, the second semester. An odd number identifies the first semester of a full-year course and an even number the second semester, as for example Eng 101 and 102. In each case a course designated as "Continuation" signifies the same number of credits and the same hours and instructor as indicated for the first semester of that course.

---

† In the Education, English, Languages, Psychology, Social Sciences, and Speech Pathology and Audiology departments, courses in the 300's may be elected for senior credit, in fulfillment of the requirement that any major must include 6 credits on senior level.

The following symbols are used to indicate courses offered in alternate years:

* Offered in odd years, i.e., 1959-60

# Offered in even years, i.e., 1960-61

The College reserves the right to discontinue any course or to make any other necessary changes in the program.

Finances

FINANCIAL REGULATIONS

All students must pay their tuition and dormitory fees for the semester before or upon registering or sign a Tuition Plan contract in advance as a prerequisite for entering classes.

Students will be charged for damage or breakage in any of the College buildings.

Every student is held responsible for knowledge of financial obligations as printed in this bulletin.

TUITION PLAN

Since some prefer to pay tuition and other fees in equal monthly installments, the College offers for their convenience the Tuition Plan under which, for a service charge of four per cent, bills may be paid in monthly installments. Inquiries concerning the Tuition Plan may be made of the Bursar.

EXPENSES

All fees and expenses are subject to change as the College deems necessary. Tuition and fees for the academic year 1959-1960 are as follows:

LOSS OF PROPERTY

The College assumes no responsibility for loss of student property in any of the College buildings through fire, theft, or any other cause.

FINANCIAL ASSISTANCE

The Board of Trustees has authorized the Scholarship Committee to use certain funds for financial assistance to graduate and undergraduate students. Amounts available for undergraduates range from $50 to $450 a year, credited on the tuition, half the first semester and half the second. The funds are divided among graduate fellowships, tuition and prize scholarships for incoming undergraduate students, tuition scholarships and grants-in-aid for returning undergraduate students, and loans, as follows:

Graduate Fellowships

Information about these fellowships will be found on page 57.

Tuition Scholarships for Incoming Undergraduate Students

Awarded, following application filed with the Director of Admissions by May 1, on the basis of financial need, secondary school record, participation in school and community activities, and a demonstrated interest in speech.

Prize Scholarships for Incoming Undergraduate Students

Awarded to winners of certain contests, determined from year to year, in the names of Joseph E. Connor, Ella McDuffee Ross, Harry Seymour Ross, Grover C. Shaw, Jessie Eldridge Southwick, and Junior Achievement.

Tuition Scholarships and Grants-in-Aid for Returning Undergraduate Students

Awarded by the Scholarship Committee, following application filed with the Chairman of the Scholarship Committee by May 1 for the succeeding year, on the basis of financial need, scholastic achievement, and college citizenship, as follows:

Charles Wesley Emerson and Susie Rogers Emerson Scholarship. Established from the estate of Mrs. Charles Wesley Emerson in memory of her husband, the founder of Emerson College.

Charles Winslow Kidder Scholarship. Established by Mrs. Charles Winslow Kidder in memory of her husband, for twenty-five years Registrar of Emerson College.

Proctor Scholarship. Established by Lydia Ellen Phoenix, '91.

Southwick Recital Scholarship. Established by Henry Lawrence Southwick in 1900. Awarded, when and if merited, for excellence in public dramatic interpretation.

International Friendship Scholarship. Established by vote of the Board of Trustees to promote friendship and understanding between the students of this and other countries.

Henry Lawrence Southwick Scholarship. Established by Henry Lawrence Southwick. Awarded for character, loyalty, and constructive influence.

Harry Seymour Ross Scholarship. Awarded to a deserving student of high scholastic record.

Ella McDuffee Ross Scholarship. Awarded to a deserving student of high scholastic record.

Helen Frances Warren Pershing Scholarship. Established by Harry Seymour Ross in memory of the wife of General John J. Pershing.

Elizabeth E. Keppie Scholarships. Established by bequest of Elizabeth E. Keppie, '08, for worthy senior students.

Elmer Metcalf Fisher Scholarship. Established in 1952 by the senior class and continued by the College in recognition of Mr. Fisher's eight years of devoted service to students, faculty, and staff.

Creative Writing Prize Scholarship. Awarded for excellence in creative writing, independent of class assignments.

The Bessie and Samuel Volansky Hearing Fund Scholarships. Established in 1955 in honor of Bessie and Samuel Volansky to give scholarship aid to students majoring in audiology.

Olive Palmer Hansen Scholarship. Established by bequest of Olive Palmer Hansen, '97.

Emerson College Scholarships. Established by the Scholarship Committee in the name of the College.

Working Scholarships. Established for the mutual benefit of students and of the College.

Grants-in-aid. Awarded to deserving students who do not meet the academic requirements for tuition or working scholarships.

Tuition Loans

Information about this fund and about National Defense Student Loans may be obtained from the Chairman of the Scholarship Committee.

EMPLOYMENT

Whenever possible, the College assists the student who wishes part-time or summer employment. The most usual types of part-time positions available for students are as tutors, entertainers, clerks, waiters, typists, etc. It should be borne in mind that the pressure of academic work makes it inadvisable to devote much time to outside employment during the academic year. A prospective student should come prepared to meet the greater part of his expenses.

Students seeking part-time or summer employment should file their applications with the Business Manager.

The placement service refers requests for professional services to students approved by the departments concerned.

ENDOWMENT FUNDS AND GIFTS

Emerson College, like all colleges, needs gifts, bequests, and additions to its funds from friends and alumni in order to make up the difference between the tuition and the cost of the education offered. *Gifts to Emerson College are allowable federal income tax deductions up to the maximum provided in the Revenue Code.*

The Alumni Council is a nationally representative body, including representatives of each class and alumni club.

ALUMNI CLUBS

In addition to the central association, local alumni clubs have been formed in convenient centers. These organizations maintain close relationships with the College through correspondence and visits from College representatives. Although their purpose is primarily social, many groups are engaged in definite activities in behalf of the College.

The alumni clubs welcome inquiries from graduates wishing to become members, or from any person seeking information concerning the club or College. They are listed below, in order of date of founding, with their last reported president or representative:
